Public Conference: *Peasants' Rights in Europe*

The implementation of the UN Declaration for the Rights of Peasants (UNDROP) in Europe and its contribution to the SDGs and the UN Decade of Family Farming

30 September 2019

13:30-17:00

European Economic and Social Committee

[VMA building, Rue Van Maerlant 2 – room VMA3](#)

Brussels

In December 2018, the UN Declaration on the rights of peasants and other people working in rural areas (UNDROP) was adopted by the General Assembly of the United Nations in New York by a large majority of countries.

It is time to see how this international human rights instrument can support the livelihood of rural populations in Europe, and contribute to the full realisation of the 2030 Agenda on Sustainable Development and to a successful Decade of Family Farming.

It is fundamental to put smallholder farmers at the center of more sustainable food systems and their governance, in order to overcome growing levels of hunger and inequalities in today's world. Smallholder farmers are also essential in the preservation of natural resources and in the development of agroecological farming methods.

This event aims to bring together representatives of United Nations agencies, European Union institutions, academics, experts and most importantly peasants from Europe in an exchange of views in order to:

- *Share information about the recent UN adopted resolution on the Rights of Peasants and the UN Decade on Family Farming (UNDFE);*
- *Promote the implementation of the UNDROP in Europe;*
- *Highlight the relationship between the UNDROP and the UNDFE on issues such as food and agriculture policies, seeds and biodiversity.*

Duration of the conference: 3h

Draft Agenda

13:00-13:30 Registration and lunch

13:30-13:45 - Welcoming
